

## IPC 600

### FEATURES

- Adaptable tool to different tool to different traditional test bench (any brand)
- Full test for EUI injectors (up to 12 mm pumping stroke ), PLD (Unit Pump) B.I.P. Measurement
- Electronic flow measurement at different rotation speed
- Double coil EUI (E3)
- Auto Learning Program
- Adjustable pumping stroke
- Test data parameters update by internet

### TECHNICAL CHARACTERISTICS

Power supply	200÷240 Vac - 50/60 Hz Power: 1,5KW
Test bench power engine	at least 5,5KW
Flow measurement	8,3 ÷ 833 cm <sup>3</sup> /min
Injector pressure EUI	0 ÷ 2000 bar
Injector pressure PLD	0 ÷ 1500 bar

### DIMENSIONS

Cambox:  
490 x 290 x 590 mm  
Total Weight: 150 kg

Control stand:  
600 x 490 x 1050 mm  
Peso: 100 kg
